

Meaningful GRC intelligence and reporting capabilities at your fingertips

EthicsPoint Analytics is a robust, on-demand query and analysis tool that is seamlessly incorporated with EthicsPoint Issue and Event Manager.* Through pre-formatted reports or custom-generated queries, you can capture and communicate insights from your ethics and compliance efforts quickly and easily. Enterprise-wide trends and summaries of issues and incidents provide key indicators of overall program performance. It's simple to create insightful presentations and analyses for the board and management, leading to greater insight and feedback for your Governance, Risk, and Compliance (GRC) programs.

Simple report generation enables effective communication through multiple report options

- Charts and tables print as presentation-ready output
- Summary Reports provide totals and averages related to report and case detail and follow-up
- Detailed Reports allow study of aggregate case information, giving you an understanding of overall program health
- Performance Reports provide perspective on the effectiveness of an organization's ethics and compliance program

Data security ensures redundancy, scalability, and reliability

- Secure username/password access to all confidential data
- All communication and data 128-bit SSL encrypted, Verisign™ and GEOTrust™ secured
- TRUSTe and Safe Harbor certified in support of International Data Privacy guidelines, such as CNIL

Powerful custom analysis helps you identify trends and perform benchmark comparisons

- Ad-hoc report generator enables comprehensive analysis
- Root causes of violations are identified to prevent and deter future violations

Library of important analysis reports are run quickly and easily

- Any report can be added to a reports dashboard allowing for personalization and quick recall
- Pre-formatted and saved reports can be run at any time with a single mouse click

On-Demand, Software-as-a-Service delivery enables rapid customization and deployment

- No software to install or servers to buy
- Easy upgrades
- Quick user adoption
- Fewer hidden costs and lower overall cost of ownership

**EthicsPoint Analytics is optional to EthicsPoint Issue and Event Manager Foundation, but is included with Professional and Enterprise.*
